FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Insurance**, the **Department of Transportation**, the **Department of Conservation**, and the **Missouri Consolidated Health Care Plan** assume this proposal would not fiscally impact their agencies.

Department of Social Services (DOS) officials assume the proposal would not fiscally impact their agency. DOS states the proposal does not mandate managed care plans to provide the information electronically. DOS states it allows enrollees to choose if they receive documents this way. DOS assumes that the documents and materials referred to in the proposal are public information documents and not confidential in nature. DOS states that Medicaid managed care would be controlled by very strict federal confidentiality rules which would limit Internet use unless stringent security measures were enacted.

FISCAL IMPACT - Small Business

Some small health maintenance organizations may be fiscally impacted by this proposal.

DESCRIPTION

This proposal would allow any managed care entity to provide documents and materials to an enrollee via the entity's Internet site, instead of in printed form, upon securing a waiver from the enrollee. The enrollee would be able to revoke the waiver at any time.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
